

# Special issue of Nanotechnology featuring papers from the 8th International Conference on Non-contact Atomic Force Microscopy, Bad Essen, Germany, 15-18 August 2005

## GUIDELINES FOR AUTHORS

Full-length original research papers presented at the 8th International Conference on Non-contact Atomic Force Microscopy, Bad Essen, 15-18 August 2005, will be considered for inclusion in a Special Issue of *Nanotechnology*. Each paper submitted for the issue will be refereed to the usual standards of quality for the journal. Publication date, assuming deadlines are met, is April 2006. Papers will be published online as soon as they are ready in advance of printed version.

Please note that papers will be set in the usual journal style, and will **NOT be printed from authors' camera-ready copy**. We expect an average length of submitted papers to be between 5 and 9 journal pages (between 4,500 and 8,100 words approximately). Please allow approximately 200 words per table or figure.

Guidelines on the preparation and submission of manuscripts are given below. In addition, please complete **an Article Submission Form and an Assignment of Copyright form** (see below or download from <http://www.iop.org/journals/authors>). In particular, please note the point concerning the reproduction of material already published elsewhere. **Please hand in a copy of the Article Submission Form to Guest Editor Wolfgang Mikosch at the conference and send electronic file of your paper together with an Assignment of Copyright Form and a copy of Article Submission Form directly to IOPP as outlined below. Submission deadline for manuscripts is 22 August 2005.**

### How to submit

#### Web:

This is our preferred method of submission: users of Netscape (version 2 or higher) or Internet Explorer (version 4 or higher) can submit using the online submission form at [www.iop.org/journals/authorsubs](http://www.iop.org/journals/authorsubs). Please complete the form, use the 'Browse' button to select your article's single compressed file and the 'Transfer' button at the bottom of the form to submit your file. Please indicate in 'readme' file and in the subject line where relevant **'Submission for NC-AFM2005 special issue'**.

#### E-mail:

A single compressed file containing an archive of your submission information (*readme.txt*), text and graphics files should be sent, as an attachment where possible, to the journal's e-mail address ([nano@iop.org](mailto:nano@iop.org)) with the words **'Submission for NC-AFM2005 special issue'** in the subject line. Please do not send each of your text and graphics files as separate e-mails as this causes a considerable delay in processing your submission.

### How to archive and compress your files

Text and graphics files should be archived and then compressed into a single file for ease of handling and to save time and space. The following compression or archiving programs may be used: WinZip, PKZip, tar + gzip, arj, lha, uc2, uuencode, compress, StuffIt or Zipit. Please name the resulting file *filename.ext* where the first four characters of *filename* are the first four characters of your surname and the last four are the current day and month in MMDD format (e.g. smit0531) and *.ext* is an extension (maximum three letters) denoting the file type (e.g. .zip for a PKZip file, .sit for a StuffIt file, .uu for a uuencoded file). If you have any difficulty archiving your files, please contact us for assistance ([esub@iop.org](mailto:esub@iop.org)).

**NB:** Microsoft Word documents and the output files from most compression utilities are binary files and must be encoded using uuencode, binhex or MIME before being sent by e-mail. Your e-mail system may do this automatically, but if it does not, or if you are unable to encode your submission in one of these ASCII formats, you must send your submission by FTP or on disk instead. Some e-mail systems have a file size limit, for example 100 Kbytes; if this is the case for your e-mail system, files that are larger than 100 Kbytes after compression should not be split into multiple parts, but should be sent using the online submission form, FTP or on disk. Please visit [www.iop.org/journals/authors](http://www.iop.org/journals/authors) for more information or send a query to nano@iop.org

#### **Acknowledgement of electronic submissions:**

Successful receipt and processing of your electronic submission will be manually acknowledged by the Electronic Services Specialist by e-mail when your submission has been checked. If you do not receive this notification within one week then you should contact the Electronic Services Specialist (esub@iop.org). You will receive further acknowledgement shortly afterwards from the Publishing Administrator when your article has been assigned a reference number.

#### **File preparation**

The text of the article can be prepared using Microsoft Word or any common variant of TeX. For more details visit [www.iop.org/journals/authors](http://www.iop.org/journals/authors).

**Adobe Acrobat PDF:** Acrobat PDF format is only suitable for the refereeing process. If you are able to supply a PDF file for your article at this stage it will speed up the assessment of your article. Please note **Acrobat PDF is not suitable for the production process**. You will be asked to send the text of your article in its original source form as it reaches the production stage.

#### **Figure formats**

Our preferred graphics formats are vector Encapsulated PostScript (EPS) or PostScript (PS). These files can be used directly to give high quality results and file sizes are small in comparison with most bitmap forms. Most graphics software has the facility to save or export as EPS.

#### **Multimedia**

##### **Video clips and animation**

Acceptable formats for video or animation clips are MPEG (we recommend MPEG1), QuickTime (we recommend Cinepak codec for compression, and Quality 100%), Windows AVI or Animated GIF (use only standard GIF functions as some browsers do not support the whole GIF standard).

Multimedia files should be submitted (preferably in compressed form) at the **same time** as the original article.

#### **Contact information for electronic submissions**

If you have any queries, questions or suggestions about electronic submissions, then please contact:

Electronic Services Specialist  
Journals Publishing Department  
Institute of Physics Publishing, Dirac House  
Temple Back, Bristol BS1 6BE, England
